Turning old tech into new opportunities

E-Waste into Tools

We refurbish your unwanted electronics into useful technology that goes to the residents who need them most, which reduces e-waste.

Community Events

Our work also includes local arts, workshops, family activities, low-cost internet projects, digital-literacy classes, and with even ahead.

How You Can Help

Donate your unused tech, volunteer your time, or simply spread the word.

Stay in Touch. Spread the word.
